ORRO®

Cyber Security

Virtual CISO (vCISO)

Executive-level cybersecurity leadership — without the cost, delay or risk of a full-time hire.

orro.group

Securely Connected Everything™

With cyber risks rising and regulatory expectations accelerating, organisations need clear leadership, strong governance and a security strategy that supports business outcomes.

A Virtual CISO gives you immediate access to the executive-level expertise needed to steer direction, uplift maturity and build confidence with boards, customers and regulators.

Hiring or retaining a full-time CISO is difficult and expensive, leaving many organisations without clear leadership, strong governance or a cohesive security strategy. As regulatory pressure grows and boards expect confidence and clarity, teams often end up reactive, stretched and unable to progress critical security initiatives.

Orro's Virtual CISO (vCISO) gives you immediate access to executive-level cybersecurity leadership. A named vCISO works directly with your executives and board, supported by Orro's national team of specialists across risk, governance and incident response. They provide strategic direction, uplift governance frameworks, strengthen culture and deliver clear, actionable reporting – accelerating your security maturity without the cost or delay of a full-time hire.

Key Benefits of TPRMaaS

- Clear security direction aligned to business priorities.

- Executive-level leadership without the full-time hire.

- Faster maturity uplift across frameworks and compliance.

- Risk-based decisions backed by expert insight.

- Continuity and depth from a vCISO supported by Orro's specialist team.

What you gain with vCISO

> ### Strategic Clarity

Your vCISO provides a clear security direction aligned to business goals, helping leaders understand priorities and make informed decisions with confidence.

> ### Governance & Compliance Assurance

With guidance aligned to ISO 27001, NIST CSF, SOCI and the Privacy Act, vCISO strengthens governance frameworks and ensures your organisation is audit-ready.

> ### Risk-Based Decision Support

Your vCISO highlights key risks, dependencies and exposure points – enabling leadership to act decisively and allocate resources where they matter most.

> ### Organisational Alignment

By improving communication between executives, technology teams and stakeholders, vCISO accelerates program delivery and unifies security efforts across the business.

> ### Leadership Continuity

A named vCISO backed by Orro's specialists ensures resilience and continuity – eliminating single-person risk and providing depth across multiple security disciplines.

> ### Culture & Capability Uplift

Through coaching, mentoring and awareness programs, your vCISO strengthens security culture and builds confidence across teams.

The future feels like this.®

We are a multi-disciplinary technology powerhouse, committed to keeping our customers secure and connected. We partner with our customers to boldly embrace the challenges of tomorrow, ignite innovation, and facilitate growth.

> ### Trusted Partner
> Our customers don't just trust us to keep them productive and secure today, but to prepare them for what's next, to grow with them over time and to collaboratively shape their future.

> ### Strategic Advisor
> With deep expertise in multiple facets of technology, our customers rely on us to provide them with strategic advice and guidance, helping them make smart moves towards a secure future.

> ### Solution Provider
> Our versatile suite of skills enables us to tackle complex challenges for our customers, providing them with complete business solutions that draw from our vast pool of expertise and resources.

Stay connected and protected with Orro®.
