ORRO®
Cyber Security

Cyber Security Assessments

Evaluate your cyber security maturity and get actionable intelligence about cyber threats and vulnerabilities across your organisation with a complete cyber security assessment.

Securely Connected Everything™

Manage current and emerging cyber threats with a comprehensive cyber security assessment designed to identify and close security gaps.

A comprehensive risk assessment identifies vulnerabilities, misconfiguration and poor practice and highlights the impact a cyber attack could have on your business.

Our cyber security assessments use a range of industry approved assessment frameworks. It also provides a platform for communicating the critical importance of cyber security at all levels of the business. Your comprehensive report features detailed and actionable insights for everyone from the board and executive leaders to your technology teams, so business leaders can make informed decisions about budget allocation, and the security response required.

Key benefits of cyber security assessments.

- Understand the vulnerabilities and weaknesses that cyber criminals can exploit across your entire organisation.

- Establish your baseline and clearly understand the risks of not improving your cyber security.

- Get actionable intelligence and reports so that leaders and teams can make informed decisions about cyber security.

- Check your compliance against industry frameworks to ensure your organisation meets applicable regulations.

- Prioritise your cyber security response by allocating budget and resources where they are needed most.

How we help you.

› Essential Eight Assessment

Our assessment determines your cyber security maturity across eight essential mitigation strategies. Implementing the ACSC Essential Eight strategies is a critical foundation for developing a robust cyber security strategy.

› CIS 18

The Center for Internet Security (CIS) Top 18 Critical Security Controls is a prioritised set of best practices designed to mitigate the most dangerous cyber threats. We use this holistic assessment to determine your cyber security maturity by identifying vulnerabilities in people, processes and technology.

› ISO 27001 compliance

ISO 27001 is a robust assessment framework that uses a collection of international standards to guide organisations to establish strong cyber security. This assessment details requirements for implementing, maintaining and improving an information security management system (ISMS) to increase security across information assets. Organisations that meet the standard's requirements can be audited and certified by an accredited certification body.

› Audit compliance

Our team of specialists provide daily management of your organisation's scanning infrastructure and handle your daily scan cycle requirements.

› Penetration Testing

We provide internal and external penetration testing, and attack simulations to identify weaknesses that could be used to gain access to and control of your business networks, critical assets and services. Our comprehensive reporting highlights the results within the context of your business operations, and provides prioritised recommendations for addressing the identified risks.

The future feels like this.®

We are a multi-disciplinary technology powerhouse, committed to keeping our customers secure and connected. We partner with our customers to boldly embrace the challenges of tomorrow, ignite innovation, and facilitate growth.

> ### Trusted Partner
> Our customers don't just trust us to keep them productive and secure today, but to prepare them for what's next, to grow with them over time and to collaboratively shape their future.

> ### Strategic Advisor
> With deep expertise in multiple facets of technology, our customers rely on us to provide them with strategic advice and guidance, helping them make smart moves towards a secure future.

> ### Solution Provider
> Our versatile suite of skills enables us to tackle complex challenges for our customers, providing them with complete business solutions that draw from our vast pool of expertise and resources.

Stay connected and protected with Orro®.

Discover how we can help your business and your people with Securely Connected Everything™.
