

Cyber Security Services

Comprehensive cyber security services to detect and resolve issues before they can be exploited.

Dynamic cyber protection to keep you secure.

As the cyber security threat landscape continues to evolve, it is critical for businesses to protect their digital assets by identifying and controlling security weaknesses.

Regardless of the size of your business and whether you operate locally or globally, we deliver advanced cyber security solutions 24/7 to keep you secure. We can operate as an extension of your existing support capabilities or fully manage your security visibility and incident response services.

From cyber security strategy and risk management, to visibility and response, we will proactively monitor and enhance the performance of your network.

National Cyber Defence Centre

With SOC Analysts working alongside Pen Testers, Incident Responders, Security Consultants and Architects, we provide a holistic approach to securing your business.

80+ cyber security experts

20+ years' experience

24/7 monitoring & response

Follow the sun capabilities

How we help you.

We have redefined the traditional perimeter-based security methodologies by moving towards a more holistic, risk-based approach that includes threat intelligence, user behaviour analytics, and AI/ML-based technologies.

Compliance & Assurance

From security assessments and compliance auditing to penetration and vulnerability testing, we provide a range of assurance and assessment services for cyber security and risk management.

> Compliance & Controls Assessment

A comprehensive audit of your network vulnerabilities or threats, aligned to industry frameworks, to meet insurance and regulatory requirements.

> Penetration & Vulnerability Testing

Aligning closely to the Open Web Application Security Project (OWASP) guidelines, our testing services are designed to gauge your network's cyber defence capabilities.

> Threat & Risk Assessment

Identify risk in your environment, aligned to your specific business, industry and cyber security requirements.

> IT/OT Asset Discovery

Our capabilities include OT, IIoT and IoT device recognition, industrial protocols across BACNET, Profinet and Modbus, Passive Agentless, and PLC and SCADA reporting.

Visibility & Response

Protecting your digital assets requires a strategic approach. Our visibility and response services leverage our Security Operations Centre (SOC) to promptly detect, analyse, investigate and respond to threats.

> Managed Detection & Response

Our SOC will quickly detect, investigate and respond to threats so you can regain control of your digital environment.

> Managed EDR & XDR

Once a cyber attack is contained, we'll completely remove the threat from your network, patch systems, apply any updates and restore full system functionality.

> Vulnerability Management

We continuously monitor attacks against our customer base with our SIEM technology to proactively detect and block malicious traffic across our entire customer base.

> Incident Response

Our proven incident response process allows us to quickly detect, prioritise, contain and eliminate cyber attacks, as well as secure your system against similar future attacks.

Strategy & Risk Management

> Strategy Development

A comprehensive cyber security strategy that outlines risk, mitigation strategies and responsibilities at each stage to improve security and manage a breach.

> Risk Management Advisory

Comprehensive risk management advisory to reduce risk, ensure compliance and help leaders make decisions with confidence.

> Security Maturity Assessments

We'll assess your security maturity using a range of industry approved assessment frameworks and provide a comprehensive report with actionable insights to inform decision-making.

The future feels like this.®

We are a multi-disciplinary technology powerhouse, committed to keeping our customers secure and connected. We partner with our customers to boldly embrace the challenges of tomorrow, ignite innovation, and facilitate growth.

> **Trusted Partner**

Our customers don't just trust us to keep them productive and secure today, but to prepare them for what's next, to grow with them over time and to collaboratively shape their future.

> **Strategic Advisor**

With deep expertise in multiple facets of technology, our customers rely on us to provide them with strategic advice and guidance, helping them make smart moves towards a secure future.

> **Solution Provider**

Our versatile suite of skills enables us to tackle complex challenges for our customers, providing them with complete business solutions that draw from our vast pool of expertise and resources.

Stay connected and protected with Orro®.

Discover how we can help your business and your people with Securely Connected Everything™.
